A LudoSport Academy is led by a Rector, who is accountable for the management in compliance with contractual requirements. A Rector can also be a qualified Teacher in the Academy.

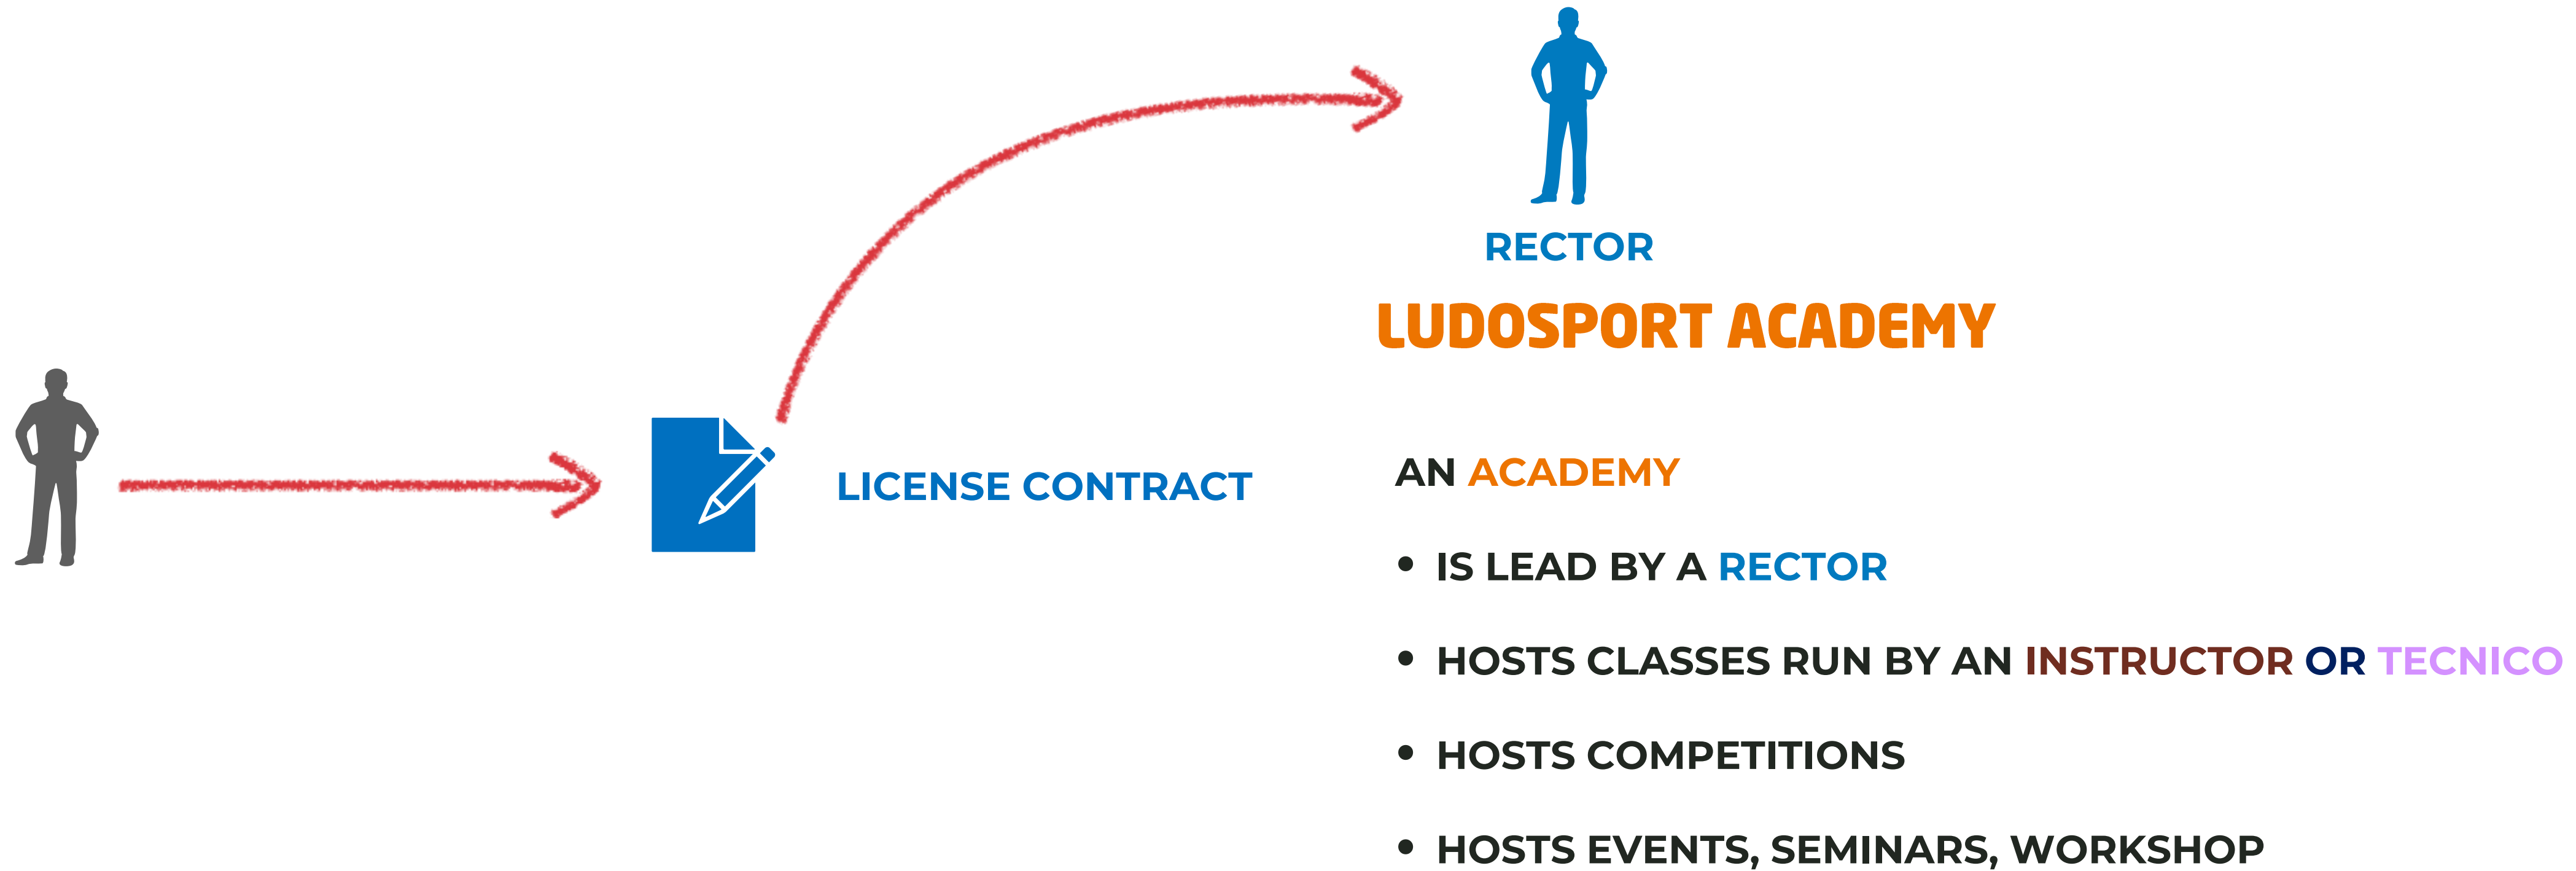

A Tecnico is the Teacher with the highest understanding of a LudoSport Form and can train members up to become qualified Instructors for that same Form. A Tecnico can also teach as an Instructor.

An Instructor is the regular Teacher of a LudoSport Form and can train members of the Academy in regular classes. After at least 1 year of running regular classes of that Form, an Instructor can attend a course to become Tecnico of that Form.

An Athlete is a member that trains periodically in the Academy, thus becoming authorized to attend Competitions and Combat Events. Athletes can attend courses run by Tecnicos to become Instructors.
